

Thrive Counselling has re-opened limited in-person counselling services to the public. In-person services can be requested through our regular intake as below.

Supervised Access family visits are reopening for in-person visits June 18th at our Burlington site and June 25th in Milton.

Thrive Counselling will continue to also deliver services virtually through phone and video to reduce the safety risks associated with the COVID-19 virus.

All group programs will continued to be offered virtually at this time.

Thrive has re-designed our services and has adapted available virtual options.

Initial counselling appointments can be booked by registering and completing intake forms on our website at www.thrivecounselling.org . You will then be contacted by intake to complete registration. Other questions can be answered by contacting us at info@thrivecounselling.org or calling 905 637-5256 or 905 845-3811. Please be aware we are experiencing a high volume of requests for service and responses may be delayed.

A limited number of Quick Access virtual appointments are also available for individuals requiring a timely single session of therapy.

Individuals may wish to visit our youtube channel for some information and strategies form our staff.

Thrive will continue to post updates on our website as they become available. Calls are often not able to be answered live at this time. We will responding promptly to phone messages, from blocked or alternate cell phone numbers , although there may be delays. Questions can also be addressed to info@thrivecounselling.org

We encourage people to look to the following resources for reliable information on the current situation and how best to protect themselves.
